

Why cement:

Immediate solid fix
Proven long term results
Low early failure
Low cost
Easy to control offset
version
LL

⊖

Longer surgical time
Technically demanding
Cup restricted to poly
Stable fixation
Pt safety

Uncemented

Biological fix
Technically easier
↓ op time
Modularity
Beating options
Preservation bone

Avoid

Door C (stone pipe)
Elderly
Prev # / osteotomy
Irradiated bone
Renal osteodystrophy
Difficult to revise
